

Product brochure

Company profile

Shenzhen Trismart Lighting Technology Co., Ltd., located in Guangming district Shenzhen city, is a research and development, design, production and sales of private high-tech enterprises. Company's management and technical team has more than 20 years' experience in the development and design of industrial lightings, professional lightings and lighting engineering systems. The chairman of the company, Dr. Chen Zhong, is the member of China Lighting Society, the Deputy Secretary General of the Shenzhen Lighting Appliance Association and a senior expert of Shenzhen Lighting Society. Trismart Lighting is a cooperative supplier of European Union led street lamps, a network supplier of Royal Shell and a network supplier of large enterprises such as Sinopec, PetroChina, State Grid and Datang Electric Power Group.

Trismart Lighting provides customers with the most reliable products as the basis of management and provides customers with intelligent and high-efficiency products to help customers reduce operating costs and management costs as a source of power for enterprise development, focusing on R & D, production and sales of smart, intelligent, high efficient, environmentally friendly led industrial lights, led high bay lights, led floodlights, led street lights and solar led street lights, and wireless remote lighting control systems based on the latest Internet of things technology, video surveillance and safety management systems, off-grid energy storage systems.

The company strictly according to the ISO 9001: 2015 quality management system for product quality control. The products have passed ATEX/IECEX international explosion-proof certification, national explosion-proof certification, TUV certification, UL certification, FCC certification, and RoHS certification. The products are exported to the European Union, Japan, Australia, Middle East, South America, Southeast Asia, Africa and other countries and regions.

Advantages of Trismart Lighting's products:

1. Adopting Philips ultra brightness 3030 and 5050 led chip, the led lights have high luminaire efficacy, high efficiency and energy saving.

- 1) Luminaire efficacy for solar led street light: 200 lm/W
- 2) Luminaire efficacy for led street light: 190 lm/W
- 3) Luminaire efficacy for led explosion-proof light: 180 lm/W
- 4) Luminaire efficacy for led floodlight: 170 lm/W
- 5) Luminaire efficacy for led high bay light: 160 lm/W

2. Adopting the latest Internet of things technology and other wireless communication technologies to meet the wireless remote intelligent lighting control needs of various places.

- 1) 2.4G mesh wireless remote intelligent lighting control system
- 2) PLC wireless remote intelligent lighting control system
- 3) LoRaWAN/NB-IoT wireless remote intelligent lighting control system
- 4) ZigBee wireless solar led street lamp lighting control system

3. The solar lamp adopts low-temperature lithium iron phosphate battery, which can discharge reliably at -30℃ and the lifespan can reach more than 3000 cycles.

4. The unique hexagonal vertical solar panel technology can directly transform the original ordinary city circuit lamp into a solar street lamp, which is resistant to wind and sand, typhoon, snow and 360 ° all-weather charging.

5. ATEX/IECEX certificates, TUV certification, UL certification, CE/RoHS certification.

off-grid energy storage system

Led high bay light series

	SZG110W wireless intelligent led high bay light Rated power: 100W/150W/200W Light efficiency of lamp: 155 lm/W Communication mode: 2.4G mesh Net structure: Mesh network(ADHOC) Max. distance: 150m(no disconnection) Remote control: gateway(4G/LAN)+PC/APP Warranty: 5 year	SZG111 microwave led high bay light Input voltage: 90~305Vac Rated power: 100W/150W/200W Light efficiency of lamp: 155 lm/W Beam angle: 120° / 90° / 60° Induction dimming: microwave sensor Maximum mounting height: 15m Warranty: 5 year	
	SNF101 led high bay light Input voltage: 90~305Vac Rated power: 50W/100W/150W/150W Led luminous efficiency: 200-240 lm/W Luminous efficacy: 155-180 lm/W Beam angle: 150° (anti-glare cover) Mounting mode: G3/4 pipe/U-bracket Warranty: 5 year	SZG110 UFO led high bay light Input voltage: 90~305Vac Rated power: 100W/150W/200W Luminous efficiency for led: 200 lm/W Light efficiency of lamp: 155 lm/W Beam angle: 90° / 120° / 130° Aluminum reflector: optional Warranty: 5 year	
	SZG102 UFO led high bay light Input voltage: 90~305Vac Rated power: 100W/150W/200W Luminous efficiency for led: 210 lm/W Light efficiency of lamp: 160 lm/W Beam angle: 120° / 90° / 60° IP protection: IP66 Warranty: 5 year	SZG101 high power led high bay light Input voltage: 90~305Vac Rated power: 200W/300W/400W/500W Luminous efficiency for led: 200 lm/W Beam angle: 90° / 60° / 25° Led driver: Meanwell/Sosen IP protection: IP65 Warranty: 5 year	
	SZG107 led high bay light Input voltage: 90~305Vac Rated power: 120W/180W Luminous efficiency for led: 200 lm/W Beam angle: 120° / 90° Led driver: Inventronics/Sosen Mounting mode: Ring Warranty: 3 year	SZG103 UFO led high bay light Input voltage: 90~305Vac Rated power: 50W/100W/150W/200W Luminous efficiency for led: 200 lm/W Beam angle: 90° Led driver: Trismart Lighting Mounting mode: Ring Warranty: 3 year	

Led explosionproof light series

WRTLE310 led explosionproof platform lamp

Input voltage: 100~277Vac
Rated power: 50W/100W/150W/200W/300W/400W
Luminous efficacy for lamp: 150 lm/W
Explosionproof certification: ATEX
Explosionproof mark: Ex II 2 GD Ex d IIB T6 Gb
Mounting mode: U-bracket
Warranty: 5 year

SZG202C led explosionproof lamp

Input voltage: 90~305Vac
Rated power: 55W/65W/75W
Luminous efficacy for lamp: 150 lm/W
Beam angle: 120°
Explosionproof mark: Ex II 2 G Ex d IIC T6 Gb
Mounting mode: G3/4 pipe /U-bracket
Warranty: 5 year

SZG200 led explosionproof lamp

Input voltage: 90~305Vac
Rated power: 30W/50W/60W/80W/100W
Luminous efficacy for lamp: 155-180 lm/W
Beam angle: 120°
Explosionproof mark: Ex II 2 G Ex d IIC T6 Gb
Mounting mode: G3/4 pipe/U-bracket
Warranty: 5 year

SZG200 led explosionproof lamp(solar)

Patent No: ZL 2021 2 0437042.7
Explosionproof mark: Ex demb IIC T6 Gb
Rated power: 40W/60W/80W
Explosionproof solar panel: 70-120W
Luminous efficacy for lamp: 155-180 lm/W
Control mode: light control+time control
Mounting height: 5-8 m

SZG202C led explosionproof lamp(emergency)

Input voltage: 90~305Vac
Rated power: 50W(emergency 5W)
Emergency type: illumination emergency
Emergency time: Li-ion battery, 90min
Explosionproof mark: Ex II 2 G Ex d IIC T6 Gb
Mounting mode: G3/4 pipe /U-bracket
Warranty: 3 year

SEF380 explosionproof led floodlight

Input voltage: 90~305Vac
Rated power: 50W/100W/150W/200W/250W
Luminous efficacy for lamp: 155 lm/W
Beam angle: 60°/90°/120°/150°*80°
Explosionproof certification: ATEX
Explosionproof mark: Ex II 3G Ex ec nC IIC T6
Warranty: 5 year

XQL300B explosionproof led street light

Input voltage: 90~305Vac
Rated power: 100W/150W/200W
Luminous efficacy for lamp: 150 lm/W
Beam angle: 130°*60°
Led driver: Trismart Lighting
Explosionproof mark: Ex d IIC T6 Gb
Mounting mode: ϕ 60

XQL300 led explosionproof floodlight

Input voltage: 90~305Vac
Rated power: 40W/50W/70W/90W
Luminous efficacy for lamp: 150 lm/W
Beam angle: 120°
Led driver: Trismart Lighting/Meanwell
Explosionproof mark: Ex d IIC T6 Gb
Mounting mode: G3/4 pipe /U-bracket

Led floodlight series

SZG307 high power led floodlight

Input voltage: 90~305Vac
Rated power: 250W-1500W
Light efficacy of luminaire: 165 lm/W
Beam angle: 15° / 30° / 60°
Led driver: Inventronics/Sosen
Modular power: 250W/modular
Test report: IEC60598/ IEC 62741/LM80
Warranty: 5 year

SZG325 led stadium floodlight

Input voltage: 90~305Vac
Rated power: 600W / 1200W / 1800W
Light efficacy of luminaire: 160 lm/W
Beam angle: 10° / 30° / 45° / 60°
Led driver: Inventronics/Sosen
IP protection: IP66
Test report: IEC60598/ IEC 62741/LM80
Warranty: 5 year

SZG328 led high pole spotlight

Input voltage: 90~305Vac
Rated power: 250W-1500W
Light efficacy of luminaire: 160 lm/W
Beam angle: 15° / 30° / 60° / 90°
Led driver: Inventronics/Sosen
Modular power: 250W/modular
Modular angle adjustment: yes
IP protection: IP66

SZG326 high power led floodlight

Input voltage: 90~305Vac
Rated power: 250W-1000W
Light efficacy of luminaire: 160 lm/W
Beam angle: 90°
Led driver: Inventronics/Sosen
Modular power: 250W/modular
IP protection: IP66
Warranty: 5 year

SZG330 led square stadium floodlight

Input voltage: 90~305Vac
Rated power: 400W-1200W
Luminous efficiency of led: 210 lm/W
Light efficacy of luminaire: 160 lm/W
Beam angle: 7° / 15° / 30° / 60° / 90° / 120°
Led driver: Inventronics/Sosen
IP protection: IP66
Warranty: 5 year

SNF208 modular led floodlight

Input voltage: 90~305Vac
Rated power: 50W-400W
Light efficacy of luminaire: 155 lm/W
Beam angle: 60° / 90° / 120° / 150°*80°
Heat dissipation: radiation+air convection
Dark sky: meet
IP protection: IP66
Warranty: 5 year

SZG312 led floodlight

Input voltage: 90~305Vac
Rated power: 100-600W(100W/modular)
Luminous efficiency for led: **200 lm/W**
Light efficacy of luminaire: **155 lm/W**
Beam angle: 30° / 60° / 90° / 145°*70°
Led driver: Inventronics/Trismart
IP protection: IP66
Warranty: 5 year

SZG301 led floodlight

Input voltage: 90~305Vac
Rated power: 50-600W(50W/modular)
Luminous efficiency for led: **200 lm/W**
Light efficacy of luminaire: **155 lm/W**
Beam angle: 30° / 60° / 90° / 145°*70°
Led driver: Inventronics/Trismart
IP protection: IP66
Warranty: 5 year

SNF101 led triproof platform lamp

Input voltage: 90~305Vac
Rated power: 30W/50W/60W/80W/100W
Luminous efficiency of led: **200-240 lm/W**
Light efficacy of luminaire: **155-180lm/W**
Beam angle: 150°(anti-glare cover)
Mounting mode: G3/4 pipe/U-bracket
IP protection: IP66

SZG306 led triproof linear light

Input voltage: 90~305Vac
Rated power: 20W/30W/50W/60W
Dimensions: 0.6m/0.9m/1.2m/1.5m
Luminous efficiency of led: 200 lm/W
IP protection: IP66
Mounting mode: ceiling/hoist
Warranty: 5 year

Solar led street light/led garden light/led floodlight series

SZG574V vertical solar panel led street light

Rated power: 30W-100W/2*80W/2*100W
Vertical solar panel: 100-560W
Features: 360° for sunshine acception
less accumulation of dust&snow
Battery: low-temperature LiFePO₄ battery(-30°C)
Light efficiency for luminaire: ≥185 lm/W
Mounting height: 6m~12m
Warranty: 5 year

SZG571V vertical solar panel led street light

Rated power: 35W/50W/70W/90W
Vertical solar panel: 100-280W
Features: 360° for sunshine acception
less accumulation of dust&snow
Battery: low-temperature LiFePO₄ battery(-30°C)
Light efficiency for luminaire: 190 lm/W
Mounting height: 6m~10m
Warranty: 5 year

SZG560 vertical solar panel modular

Patent No.: ZL 2021 2 0422526.4
Rated power: 100W / 140W
Solar panel: vertical solar panel (mono)
Sunshine angle: 360° accepted
Dust accumulation: less
Snow accumulation: less
Wind resistance: good due to small area
Mounting: replacement on old lamppost

SZG574 two in one solar led street light

Rated power: 30W/50W/65W/80W/100W
Poly solar panel: 40W~120W
Battery: low-temperature LiFePO₄ battery(-30°C)
Light efficiency for luminaire: 190 lm/W
Control mode: light control+time control
Mounting height: 5m~10m
Dark sky requirement: meet
Warranty: 5 year

SZG553 all in one solar led street light

Rated power: 30W~100W
Solar panel: 30W~100W (mono)
Battery: low-temperature LiFePO₄ battery(-30°C)
Light efficiency for luminaire: 185 lm/W
Control mode: light control+sensor control
Mounting height: 5m~10m
Dark sky requirement: yes
Warranty: 5 year

SZG555 all-in-one solar led garden light

Rated power: 40W
Solar panel: 48W (mono)
Light efficiency for luminaire: 185 lm/W
Battery: low-temperature LiFePO₄ battery(-30°C)
Control mode: light control+sensor
Mounting height: 7m~8m
Remote control: 2.4G(optional)
Warranty: 5 year

SZG552 all-in-one solar led street light

Rated power: 30W~100W
Solar panel: 30W~100W (mono)
Battery: low-temperature LiFePO₄ battery(-30°C)
Light efficiency for luminaire: 185 lm/W
Control mode: light control+sensor control
Mounting height: 5m~10m
Dark sky requirement: custom made
Warranty: 5 year

SZG554 all-in-two solar led street light

Rated power: 45W/ 60W / 90W/120W
Solar panel: 30W~70W (poly)
Solar panel adjustable: adjustable
Battery: low-temperature LiFePO₄ battery(-30°C)
Light efficiency for luminaire: 160 lm/W
Control mode: light control+time control
Mounting height: 4m~7m
Warranty: 5 year

SZG558 all-in-one solar led garden light

Rated power: 40W
Solar panel: 20W (mono)
Battery: low-temperature LiFePO₄ battery(-30°C)
Luminous efficiency for led: 190 lm/W
Light efficiency for luminaire: 150 lm/W
Control mode: light control+time control
Mounting height: 4m~5m
Mounting diameter: ≤φ76 mm

SZG573 all-in-one solar led street light

Rated power: 120W/80W/45W
Solar panel: 60W/25W/15W (mono)
Solar panel adjustable: -90°~+90°
Battery: low-temperature LiFePO₄ battery(-30°C)
Luminous efficiency for led: 230 lm/W
Light efficiency for luminaire: 190 lm/W
Control mode: light control+microwave
Mounting height: 5m~8m

SZG567 all-in-one solar led garden light

Rated power: 25W/35W/50W
 Solar panel: 25W/35W/50W (mono)
 Battery: low-temperature LiFePO₄ battery(-30℃)
 Luminous efficiency for led: 190 lm/W
 Light efficiency for luminaire: 150 lm/W
 Control mode: light control+time control
 Mounting height: 4m~7m
 Mounting diameter: ≤φ76 mm

SZG565 all in one solar led street light

Rated power: 50W/60W/80/100W
 Solar panel: 50W~100W (mono)
 Battery: low-temperature LiFePO₄ battery(-30℃)
 Luminous efficiency for led: 180 lm/W
 Light efficiency for luminaire: 145 lm/W
 Control mode: light control+PIR control
 Mounting height: 5m~9m
 IP protection: IP66

SZG556 solar led floodlight

Rated power: 50W
 Solar panel: 35W (poly)
 Battery: power lithium iron phosphate
 Luminous efficiency for led: 170 lm/W
 Light efficiency for luminaire: 130 lm/W
 Control mode: light control+time control
 Battery indicator: yes
 Running indicator: yes

SZG562 hawkeye solar led wall lamp

Rated power: 50W/60W/80/100W
 Solar panel: 50W~100W (mono)
 Battery: power lithium iron phosphate
 Luminous efficiency for led: 180 lm/W
 Light efficiency for luminaire: 145 lm/W
 Control mode: light control+PIR control
 Mounting height: 5m~9m
 IP protection: IP66

Led street light series

SNF288 led street light

Test report: IEC 60598/IEC 61000/LM79/LM80
Rated power: 100W/150W/200W/250W
Luminous efficiency of led: 200 lm/W
Light efficacy of luminaire: 155 lm/W
Led driver: Inventronics/Sosen
Angle adjustable: $-90^{\circ} \sim +90^{\circ}$
Heat dissipation: radiation+air convection

SZG512 led street light dark sky

Rated power: 75W/100W/150W/200W
Luminous efficiency of led: 230 lm/W
Light efficacy of luminaire: 180 lm/W
Led driver: Inventronics/Sosen
Angle adjustable: $-90^{\circ} \sim +30^{\circ}$
Light sensor: NEMA light sensor
Streamlined design: no dust accumulation

SZG510 led street light

Test report: IEC 60598/IEC 61000/LM80
Rated power: 100W/150W/200W/250W
Luminous efficiency of led: 200 lm/W
Light efficacy of luminaire: 155 lm/W
Led driver: Inventronics/Sosen
Cover opening: rear cover opening
Light sensor: NEMA light sensor optional

SZG508A led street light dark sky

Rated power: 50W/100W/150W/200W
Luminous efficiency of led: 210 lm/W
Light efficacy of luminaire: 160 lm/W
Cover open: flip open/easy maintenance
Angle adjustable: $-90^{\circ} \sim +30^{\circ}$
Light sensor: NEMA light sensor
Dark sky requirement: meet

SZG507 led street light

Input voltage: 90~305Vac
Rated power: 100W/150W/200W/250W
Luminous efficiency of led: 200 lm/W
Light efficacy of luminaire: 155 lm/W
Beam angle: $140^{\circ} \times 70^{\circ}$
Led driver: Inventronics/Sosen
IP protection: IP66

SZG513 led street light dark sky

Rated power: 75W/120W/180W/250W
Luminous efficiency of led: 215 lm/W
Light efficacy of luminaire: 165 lm/W
Cover open: flip open/easy maintenance
Angle adjustable: $-90^{\circ} \sim +30^{\circ}$
Light sensor: NEMA light sensor
Dark sky requirement: meet

SZG511 led street light

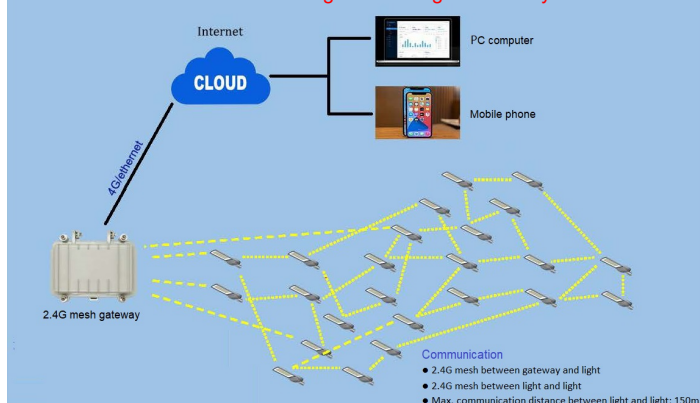

Input voltage: 90~305Vac
Rated power: 50W/100W/150W/200W
Luminous efficiency for led: 200 lm/W
Light efficacy of luminaire: 150 lm/W
Beam angle: $140^{\circ} \times 70^{\circ}$
Cover opening: rear cover opening
Light sensor: NEMA light sensor optional

SZG512W wireless intelligent led street light

Rated power: 75W/100W/150W/200W
Light efficacy of luminaire: 180 lm/W
Communication mode: 2.4G mesh
Net structure: Mesh network(ADHOC)
Max. distance: 150m(no disconnection)
Remote control: gateway(4G/LAN)+PC
Angle adjustable: $-90^{\circ} \sim +30^{\circ}$

2.4G mesh wireless intelligent street light control system

Off-grid energy storage system

SES1000-1500D off-grid energy storage power

Output power: 1000W
Peak power: 2500W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 1000Wh
Charging mode: PV charging/AC charging
Communication: RS485/wifi/GPRS

SES1000-2000D off-grid energy storage power

Output power: 1000W
Peak power: 2500W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 2000Wh
Charging mode: PV charging/AC
Communication: RS485/wifi/GPRS

SES2000-2500D off-grid energy storage power

Output power: 2000W
Peak power: 5000W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 2500Wh
Charging mode: PV charging/AC charging
Communication: RS485/wifi/GPRS

SES1000-4000D off-grid energy storage power

Output power: 2000W
Peak power: 5000W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 4000Wh
Charging mode: PV charging/AC
Communication: RS485/wifi/GPRS

SES3000-5000D off-grid energy storage power

Output power: 3000W
Peak power: 8000W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 5000Wh
Charging mode: PV charging/AC charging
Communication: RS485/wifi/GPRS

SES5000-5000D off-grid energy storage power

Output power: 5000W
Peak power: 12500W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 5000Wh
Charging mode: PV charging/AC
Communication: RS485/wifi/GPRS

SES5000-10000D off-grid energy storage power

Output power: 5000W
Peak power: 12000W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 10000Wh
Charging mode: PV charging/AC charging
Communication: RS485/wifi/GPRS

SES7000-10000D off-grid energy storage power

Output power: 7000W
Peak power: 18000W
Output wave: pure sine wave
AC output voltage: 220~230Vac/50Hz
DC output voltage: 5V / 12V
LFP battery: 10000Wh
Charging mode: PV charging/AC
Communication: RS485/wifi/GPRS

Portable and mobile lamp series

SZG8210 smart moving lighthouse

Rated voltage: 220Vac 50Hz
Rated power: 4*500W
Generator: 5KW Honda GX390
Max lifting height: 7m
Max oil mass: 50L for 30 hours lighting
IP protection: IP65
Tackle size: 1.35*1.55*2.05m
Weight: 600Kg

SZG6116 led moving worklight

Battery capacity: 12.6V 13Ah
Light power: 35W
Discharge time: ≥8h
Lighting mode: spotlight/floodlight
Max lifting height: 1500m
Lifter: retractable and lying down
Dimensions: 510*290*220mm
Weight: 8Kg

HZ6117 explosionproof moving worklight

Explosionproof mark: Ex deibmb IIC T6 Gb
Battery capacity: 22.2V10Ah
Rated power: 50W/30W
Discharge time: 10hrs(strong)/16hrs(weak)
Illumination mode: strong/middle/weak
spotlight/floodlight
Warning signal: red/blue light flicker
Max lifting height: 1280mm

SZG5282 multifunctional worklight

Battery capacity: 11.1V5Ah
Rated power: 12W
Discharge time: 10hrs/20hrs/80hrs
Magnetic adsorption: yes
Electricity indicator: yes
Head angle: adjustable
Warning light: rear yellow light
Dimensions: $\phi 172 \times 156 \times 210$ mm

SZG7622 led strong flashlight

Battery capacity: 3.7V2.2Ah
Rated power: 3W
Discharge time: 8hrs(strong)/16hrs(weak)
Max range: 500m
Electricity indicator: yes
IP protection: IP66
Dimensions: $\phi 35 \times 160$ mm
Weight: 180g

SZG6601 inspection worklight

Battery capacity: 3.7V5Ah
Light power: 3W(front)/6W(side)
Discharge time: 8hrs/16hrs(front light)
4hrs/8hrs(side light)
Warning light: red and blue light flashing
Magnetic adsorption: yes
Electricity indicator: yes
Dimensions: $\phi 47 \times 240$ mm

SZG5133 led micro headlamp

Battery capacity: 3.7V2.2Ah
Rated power: 3W
Discharge time: 8hrs(strong)/16hrs(weak)
Focused focusing: telescopic adjustment
Head angle: adjustable
Cap Wear: Available
Electricity indicator: yes
Dimensions: $\phi 78 \times 67 \times 59$ mm Weight: 93g

SZG6330 portable floodlight

Battery capacity: 11.1V5Ah
Rated power: 12W
Discharge time: 10hrs/20hrs/80hrs
Magnetic adsorption: yes
Electricity indicator: yes
Head angle: adjustable
Warning light: rear yellow light
Dimensions: $\phi 260 \times 170 \times 150$ mm

SZG808 solar power generation emergency system

Folding PV panel: 48W(mono solar panel)
Li-battery capacity: 12V50Ah/12V30Ah
Inverter power: 220Vac($\leq 350W/\leq 250W$)
USB output: 2xUSB 5V/2.1A
DC output: 4x12VDC/5A
Bulb power: 1x13W+3x5W
Dimension: 400*318*235mm
Weight: 13.5Kg/12.5Kg

SZG7633 multifunctional worklight

Battery capacity: 3.7V2.6Ah
Light power: 3W
Discharge time:
Focused focusing: telescopic
Magnetic adsorption: yes
Head angle: 90° adjustable
Electricity indicator: yes
Dimensions: $\phi 50 \times 46 \times 225 \text{mm}$

Smart lamp/remote wireless intelligent lamp series

SZG620 city smart lamp

- Intelligent street light: automatic switching, dimming, group, position, fault auto alarm, report output
 - Model: SZG508A
 - Input voltage: 220Vac 50-60Hz
 - Power: 50W/100W/150W/200W
 - Remote communication: LoRaWAN/NB-IoT
 - Transmission distance: 10Km (visual) / 2Km (urban)
 - Control quantities: ≥300 sets
- Smart lamp
 - video surveillance: security monitoring, license plate
 - micro weather stations: monitoring urban environment, Including noise, air pollution, temperature, Humidity, brightness
 - information issue: environmental aspect, weather forecast government notice, news broadcasting, traffic Induction, advertisement
 - emergency call: the public in times of danger and difficulty to the regulatory authorities to call for help or find a major mystery or accident reports
 - charging pile: new energy vehicle
 - wireless network: hotspot wifi, micro base station
 - RFID: special crowd and municipal facility monitoring
- Background soft management and control system

Control parts of intelligent street light:

NB-IoT slave controller

LoRaWAN gateway

LoRaWAN slave controller
/NB-IoT slave controller

Intelligent remote circuit controller:

It integrates electric energy monitoring, overload, short circuit, overvoltage protection, remote control, network communication function and high centralized intelligent electric actuator.

- protection function: monitor output power consumption, automatically cut off power supply in abnormal condition
- automatic reclosing: realization of unattended, automatic reclosing after line recovery
- metering function: voltage and current real-time monitoring and electric energy metering
- wireless communication: with local RS485 communication and GPRS wireless communication, can achieve far away process classification control, fault query and measurement data reporting
- equipment management: with perfect fault condition monitoring (overload, short circuit, under voltage, lack of phase, phase imbalance) and real-time reporting and warning

2.4G mesh ADHOC
intelligent lighting
control system

Advantages:

- 2.4G mesh wireless communication
- With mesh network structure, light and light can automatically make addressing and flexible networking. Each light is both node and relay station which can ensure no disconnection and continuous network connection.
- Maximum transmission distance: 150 meters, even for individual sections if there is a malfunction or poor communication, it can also automatically search for another one node or cross node transmission.
- Both single lamp control and group control can be carried out.
- Maximum number of supported nodes: 15000pcs
- Adopting advanced frequency hopping technology with strong anti-interference ability
- Support remote control of PC computer and mobile app
- Support on-site scene panel control
- Maximum power for single light: 2000W

Internet of things intelligent lighting cloud control system

➤ Lighting status

- using a timer or light sensor to control lights on/off
- cannot remotely control the brightness of lamps to achieve the purpose of saving energy and reducing consumption
- cannot adjust the lighting operation mode according to holidays and seasons(especially seasons)
- cannot remote, real-time access to lighting operating parameters
- cannot get the lighting daily, monthly accurate energy consumption data, grasp the effect of energy conservation and emission reduction
- lamp malfunction depends on manual report
- cannot quickly and accurately determine the location of lighting fixtures

➤ Internet of Things based on wireless remote communication technology - LoRaWAN technology

LoRa technology is the most promising low-power wide-area communication technology. LoRa adopts the linear frequency modulation spread spectrum modulation technology and keeps maintaining low power consumption so that the communication distance and network efficiency are obviously increased, and the interference is eliminated. Even if the same frequency is used, the transmission does not interfere with each other.

LoRaWAN is an open standard that defines communication protocols based on LPWAN technology of LoRa chips. LoRaWAN is a star or star-to-star topology that is better than a mesh network because of its advantages in maintaining battery power and increasing communication range.

➤ Topology of LoRaWAN intelligent lighting cloud control system

LoRaWAN wireless intelligent lighting system

Functions and features:

- Follow the LoRaWAN wireless transmission protocol
- Support 2G/3G/4G and LAN multiple network access modes
- Adaptive Data Transfer Rate
- Output power up to 23 dBm
- Sensitivity reduced to -142.5 dBm
- Support 8 channels concurrency, can access the number of lamps up to 2000
- Maximum transmission distance: 10 Km(visual)
/4 Km(urban)
- Support 470MHz/US915MHz/EU868MHz working frequencies
- Lightning grounding Protection

➤ LoRaWAN intelligent lighting cloud control system background management software platform

Wireless remote intelligent monitoring led street light

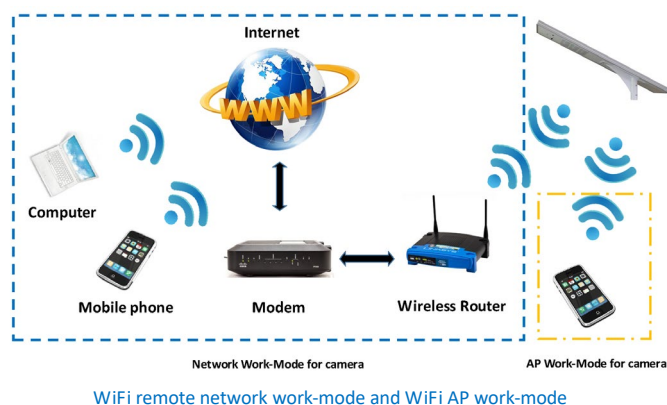

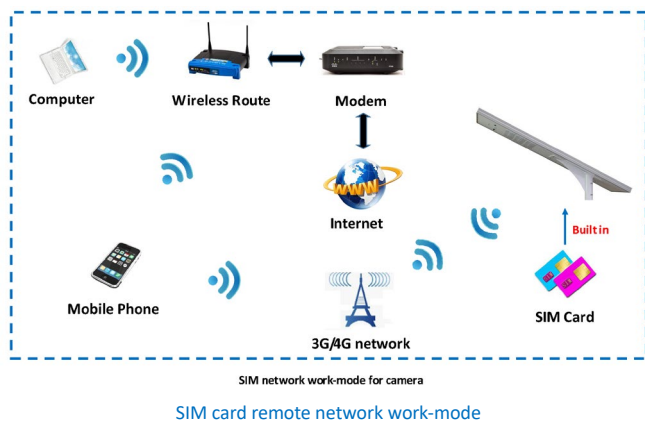

Product picture:

Monitoring video effect:

➤ Topology map of wireless remote intelligent monitoring illumination system

Functional characteristics:

- With a built-in integrated wifi HD camera or a plug-in camera through wireless router or 3G/4G SIM cell phone card connecting Internet, it can remotely monitor the site situation at any time by using mobile phone or computer and download the required video data remotely from TF card.
- It is built in 1080P camera which doesn't need cable and broadband. It can video the events at the scene under the lamp and store the data in TF card automatically.
- 32G TF memory card can store data for more than 15 days. When the recording data is full, it can circularly overwrite the previous data.
- It can be used as both lighting lamp fittings and background remote online video monitoring function in the following places:
Urban roads, township roads and rural roads
Industrial park roads
factory area roads
Parks and gardens
Villa and a private house
Commercial and cultural center
